GCC- Global Capability Center Leader | AI Transformation | BFSI Director Technology

Technology executive with more than 2 decades of experience, currently Director – Technology at Synechron leading Global Capability Center (GCC) build out and AI transformation across UAE (2 years), USA (3 years), and India. scaling GCCs, deploying production AI — LLMOps, Agentic AI — inside regulated banks, and own P&L along with Operational & Delivery Excellence – End to End

Competency:

Enterprise Strategy & Financial Leadership

- BFSI Strategy & Transformation
- P&L Ownership (\$45M+ Portfolio)
- C-Level Advisory & Board Presentations

GCC Leadership

- GCC Strategy, Setup and Transformation
- Talent Scaling, Capability Building & Workforce Transformation
- Large Scale Distributed Engineering Leadership

AI, Cloud & Data Innovation

- AI/ML – Generative AI, Agentic AI, NLP, Computer Vision
- MLOps, LLMOps, RAG, Vector Databases, Model Governance
- Data Engineering, Lakehouse, Real-Time Streaming

Global Operations & Delivery

- Global Delivery Leadership(INDIA/USA/UAE)
- Agile @ Scale, SAFe, DevOps, CI/CD, SRE

Enterprise Platforms & Modernization

- Legacy Modernization, Microservices, API-First

Industry & Regulatory Expertise

- Banking – Core, Digital, Payments, Wealth
- Insurance – P&C, Life, Claims, Underwriting
- Risk, Compliance & RegTech

EXECUTIVE CAREER PROGRESSION:

2016–2026 | **Synechron (India -> USA -> India -> UAE)** | Director – Technology | **9 Years and 6 months**
AI-led BFSI Transformation, GCC Scaling & Operations, Enterprise Delivery Excellence

2013–2016 | **Wells Fargo India** | Technology Manager 3 | **3 Years**
Enterprise Technology Delivery

2007–2013 | **Microsoft India - Services** | Program Manager | **6 Years and 7 Months**
Global Delivery Management & Operational Excellence

2004–2007 | **Cognizant Technology Solutions India** | Senior Associate | **3 Years**
Onsite Delivery Management & Client Management

2002–2004 | **Wipro GE Medical Systems** | Design & Validation Engineer | **1 Year and 10 Months**

2001–2002 | **Sobha Renaissance Information Tech Ltd** | Sr. Test Engineer | **1 Year**

2000–2001 | **Planetasia.com (Now – Collabera Ltd)** | Test Engineer- Internship | **1 Year & 3 Months**

Core Leadership and Tech Competencies In Last 5 Years

- **GCC Leadership:** Strategic planning, operational excellence, cross-cultural team management, talent development
- **AI Transformation:** LLM implementation, Agentic AI deployment, LLM Ops, AI governance, Responsible AI
- **BFSI Domain Expertise:** Banking operations, risk management, compliance, digital banking, fintech innovation
- **Program Delivery:** Large-scale program management, cross-functional leadership, delivery excellence, P&L Ownership
- **Digital Transformation:** Legacy modernization, process reengineering, automation, organizational change management
- **Technical Architecture:** Cloud-native solutions (AWS/Azure/GCP), microservices, API-first design, data engineering
- **Strategic Partnerships:** Vendor management, ecosystem building, joint ventures, technology alliances
- **Agile & DevOps:** Agile @ Scale, SAFe, Scrum, Kanban, CI/CD, SRE, MLOps

RECENT PERFORMANCE HIGHLIGHTS – Emirates NBD, First Abu Dhabi Bank (FAB), TransAmerica, Bank Of America

GCC Capability Center Establishment (2025-2026)

Designed and implemented a dedicated center of excellence within GCC operations:

- Built team of 120+ engineers including data scientists, ML engineers, and domain experts
- Developed AI & Tech solutions tailored for GCC banking market
- Created partnerships with regional AI initiatives including Learning Academy/Learning Paths

Agentic AI Implementation for Global Banking Client (2025-2026)

Led the deployment of autonomous AI agents for complex banking workflows, resulting in:

- 50% reduction in processing times for loan applications and underwriting
- 35% improvement in fraud detection accuracy through autonomous monitoring systems
- Established framework for human-AI collaboration in regulated banking environments

LLM Operations Framework (2024-2025)

Developed comprehensive methodology for managing LLM deployments in banking:

- Implemented continuous monitoring and optimization processes
- Established governance protocols for model updates and versioning
- Reduced model maintenance costs by 30% while improving performance metrics

ODC Core Banking Modernization Program (2024-2025)

Directed complete overhaul of legacy banking systems for regional client:

- Managed \$35M program budget with 150+ team members across 5 countries
- Migrated core banking functions to cloud-native microservices architecture (Onshore to Offshore ODC)
- Delivered project 2 months ahead of schedule with 15% under budget (Cost saving by GCC – 2 shifts)

Professional Experience

Synechron Dubai, UAE	Apr 2024 onwards
Director - Technology – GCC and AI Transformation	

Drive AI-led BFSI transformation, scale GCC delivery models, build AI capability centers, and deepen strategic partnerships across Middle East banks.

Scope:

- \$45M annual portfolio | 120 FTEs | 8 strategic BFSI accounts (India + UAE)
- AI CoE build-out | MLOps, LLMOps governance | multi-country delivery

STRATEGIC LEADERSHIP

- Designed and built a Middle East AI Centre of Excellence delivering reusable AI accelerators.
- Established enterprise AI governance, responsible AI frameworks, and model risk protocols.
- Architected AI-first consulting and GTM strategy for BFSI clients in UAE region.
- Developed autonomous AI systems for banking AML, underwriting, and fraud detection.
- Established Innovation hubs and strategic technology partnerships to accelerate enterprise adoption
- Build and scale Center of Excellence, executive talent development programs, and cross-regional capability transfer initiatives

KEY IMPACT

- Grew a \$8M account into \$28M; secured largest regional deal of fiscal year (3-year renewal).
- Delivered \$8.4M annual combined impact—fraud reduction, operational efficiency, and cost optimization.
- 35% faster system upgrades; 40% operational efficiency improvement; 35% manual effort reduction.
- Compressed loan origination TAT from 7 days to 4 hours (via Agentic AI platform).
- Deployed 8 Generative AI use cases in 18 months across 3 top GCC banks.

Synechron USA**May 2018 – Jun 2021****Director - Technology – Enterprise Delivery & Agile Excellence**

Lead enterprise delivery excellence, Agile transformation, and strategic program execution for US BFSI clients.

- Drove presales through RFP/RFQ response and solution architecture; engaged CIO/CTO/CDO to secure multi-year program wins
- Governed delivery excellence through SLAs/KPIs, experience transformation, and value-realization frameworks
- Coached teams on Scrum/Kanban; facilitated ceremonies and implemented OKR-driven continuous improvement
- Improved predictability and quality through data-driven retrospectives, metrics-based governance, and operational excellence
- Led onsite-offshore coordination across distributed teams; enabled seamless handoffs, knowledge transfer
- Enabled 24/7 global productivity across distributed engineering teams.
- Strengthened RFP/RFQ win-rates through solutioning and presales architecture.
- Improved delivery predictability with OKR-driven Agile governance.

Synechron INDIA**Associate Director – Delivery Excellence****Stint 1: Dec 2016 – Apr 2018****Director – Technology – Enterprise Delivery & Agile Excellence****Stint 2: Jul 2021 – Mar 2024**

- Built and scaled Centers of Excellence (CoEs) leveraging Agile, DevOps, and Platform Engineering.
- Governed enterprise delivery, implemented automation frameworks, and enabled data-driven reporting.
- Led Scrum transformations, release management, and regulatory-compliant delivery for top BFSI clients.
- Implemented enterprise automation, SRE practices, and APM/observability.

Wells Fargo INDIA**Nov 2013 - Dec 2016****Technology Manager 3**

- Led End-To-End Performance Test Delivery from Performance Testing COE across 3 CIOs and 7 LOBs spanning across 200+ Strategic applications and 70+ in-house applications
- Oversaw Systems Integration Testing and the migration of platforms and applications to production post-performance testing
- Managed \$4M test portfolio across 7 LOB. Enabled cloud delivery & migration programs.
- Drove SLA governance, program reporting, and risk/finance/test operations leadership.
- Vendor Management and Proposal Management tagged with People management of High end Leads and delivery engineers
- Participated in a wide range of on-going and new projects with Risk Management, Finance, Technology, Valuation, Quantitative Research, Model Review Group & Basel Groups
- Collaborate with LOB(CLT, CTD, CDOT) leadership to align with strategies/plans. - Embed long-term strategic product roadmap into an ongoing business process.
- Monitor, analyze, and assess competitive dynamics across performance testing tools. - Leading Performance Test Engineers (SDET's) and Test Managers for Consumer Lending LOB.

Microsoft India – Services (Global Delivery)**Apr 2007 - Nov 2013****Project Manager/Program Manager**

- Delivered O365 deployment of 45,000 seats across the MEA region within 2 years; led people and end-to-end delivery for Teams /O365 cloud initiatives.
- Ran infrastructure deployments for SharePoint/ Exchange/ Desktop /Private Cloud, plus lift-and-shift cloud migrations (data, servers, mailboxes, databases).
- Owned release management and multi-geo program delivery; managed budgets, scope, timeline, quality and cost with CXO-level portfolio reporting.
- Acted as Scrum Master across projects and Product Owner for O365 apps and services; led PMO governance and vendor management.

EARLY CAREER (2000 – 2007): India**Cognizant Technology Solutions****Wipro GE Medical Systems****Sobha Renaissance IT****Planetasia.com / Collabera****Senior Associate****Design & Validation Engineer****Sr. Test Engineer****Test Engineer- Internship****Apr 2004 – Mar 2007****Jun 2002 – Apr 2004****Jun 2001 – Jun 2002****Mar 2000 – Jun 2001**

ACADEMIA:

- **MBA** – Information Technology from **United Business Institute – Brussels/ Belgium**
- **Bachelor of Engineering** - Electronics & Communications from Peoples Education Society Institute of Technology (**PESIT**), Bangalore University, Karnataka, India
- **Executive Program - Indian Institute of Management (IIM), Bangalore** – Innovation Management

ACHIEVED CERTIFICATIONS:

Project Management Professional (PMP)	@Project Management Institute, USA
Certified Product Owner	@Scrum Alliance, USA
Certified Agile Coach	@ICAgile, USA
Certified Scrum Master	@Scrum Alliance, USA
Certified Software Test Manager	@STQC, INDIA
Six Sigma – Green Belt	@Wipro GE Medical Systems.

NOTABLE ACHIEVEMENTS & AWARDS

- 🏆 Global Delivery Leader – 2021 (awarded across 12,000+ delivery professionals)
- 🏆 AI Innovation Award Nominee – 2025, Dubai (for the Agentic AI credit decisioning platform)
- 🏆 Client Impact Award (3x) – 2015, 2016, 2018 (for delivering measurable business outcomes)
- Delivery Excellence Award & Growth Engine Award
- Best CPE (Customer and Partner Experience) Champion Award – 3 years running
- ThanX Visionary Award for Passionate Customer Focus
- Great People and Great Performer – nomination (Four times)
